

Fractal Imagineer

Anusha Soral : Interview Experience

1st Round - Online Assessment

Consisted of : Aptitude MCQs

Technical MCQs

2 SQL queries (easy - medium level)

1 verbal question (Tell me about yourself, why do you want to join fractal)

Each section was timed and you cannot switch between sections

Duration allotted is 90 minutes but can be completed within 60 - 65 minutes

After shortlisting based on OA,

2nd Round - Technical Interview

Purely resume based.

I was asked about all of my projects and internships in depth.

Some questions : Describe this project

What more things can you add to this project

If you were to sell this project as a product how would you go about it

Why did you use this specific ML algorithm in this problem

3rd Round - Apex Interview

In this round initially I was asked about my projects, motivation behind making certain projects.

Then he moved on to scenario based questions which involved me working in a team and having contradictory opinions with others, how would i handle such situations.

And based on my answers he was asking a lot of follow up questions.

4th Round - HC Interview

I was first asked to introduce myself, how my day went.

She asked me for feedback on the OA and did I face any challenges with the platform on which the test was conducted.

Then she moved on to ask me some basic hr questions like :

Any real life situation wherein you had to use your problem solving skills

How do you see rejection/ failure and how do you overcome it

What is something about you that is not in your resume

Where do you see yourself in the next 5 years

She was continuously asking me follow up questions on every answer I gave.

Overall the entire process was very smooth and the interviewers made sure i remain calm and do not get nervous throughout the interview process.
